Tsunamis 4

It only took a moment for massive walls of water – tsunamis – to leave at least 210,000 dead and cause massive destruction in several Asian countries on Dec. 26. The tsunamis were caused by a 9.0 earthquake centered in the Indian Ocean off Sumatra. It was the most powerful earthquake in 40 years. The international community reacted quickly with aid amid fears about disease from the bodies and lack of clean water.

A few stories of miracles came from the wreckage, such as a woman found alive floating in the Indian Ocean on a palm tree five days after the tsunamis. But tens of thousands were missing and may never be found. Many were tourists from around the world, including the United States, who had been enjoying the warm climate for the holidays.

The internet became a focal point for people looking for loved ones in the region, as blog sites to news sources such as CNN enabled people to post information about missing friends and family.

The U.S. pledged \$350 million in aid to the region, and President George W. Bush asked his two immediate predecessors in the White House, Bill Clinton and George H.W. Bush, to head an appeal for private donations.

Re-elected 4

President George W. Bush was re-elected, defeating Democratic challenger Sen. John Kerry of Massachusetts. The Republican majority in Congress strengthened, as the party gained four seats each in the House and Senate. Voter turnout was the highest since 1968.

War continues

U.S. forces remained on the front lines in Iraq, trying to bring stability to a country besieged by Iraqi rebels. Prior to Iraqi national elections in January, the U.S. increased troop totals to 150,000, the most since fighting began in March 2003. The Shiites won a plurality in the election for National Assembly seats. The National Assembly will elect the president.

In the city of Gonaives, food and drinkable water was unavailable, homes, buildings and roads were destroyed, and relief agencies had difficulty reaching the needy.

Holiday weather

Ho, ho, ho - the joke was on many holiday travelers, who were besieged by ice and snow from Texas to Ohio on Dec. 22, as well as computer problems and a large number of sick employees at separate airlines through Christmas weekend. Just after Christmas, snow fell as far south as Brownsville, Texas, and battered the East Coast from North Carolina to Massachusetts. Heavy rains began a month-long deluge in southern California.

Season put on ice

For the first time, a professional sports league lost an entire season due to a labor dispute. The National Hockey League (NHL) canceled the season after a 153-day lockout, centered on whether or not the players would accept a salary cap.

Chances are, Boston sports fans might never again enjoy a year quite like this one.

For starters, decades of Boston Red Sox frustration was wiped away in one amazing October. Trailing three games to none in the American League playoffs against the New York Yankees, Boston won four in a row and became the first team in baseball history to rally from such a deficit. The Red Sox rolled on to the World Series and swept the NL champion St. Louis Cardinals in four games. It was Boston's first World Series title since 1918, and it vanquished the dreaded Curse of the Bambino, which haunted the team since its infamous decision to sell slugger Babe Ruth to the Yankees in 1920.

The celebration continued into football season, where the New England Patriots were once again crowned NFL champions. The Patriots won their third world title in four years, defeating the Philadelphia Eagles in Super Bowl XXXIX, 24-21. In doing so, New England staked its claim to being the NFL's latest "dynasty," and sparked debate as to how they stand among the greatest teams of all time.

Basketbrawl >

A November game between the Indiana Pacers and Detroit Pistons led to one of the worst fights in U.S. sports history. On-court shoving between Indiana's Ron Artest and Detroit's Ben Wallace escalated when a plastic cup lobbed by a fan prompted Artest to charge into the stands and touch off a riot with the crowd. Several players were suspended, and criminal indictments were filed against both players and fans.

American cyclist Lance Armstrong cemented his place in sports history when he won a record sixth straight Tour de France, while just eight years removed from overcoming a battle with testicular cancer. He plans to try for a seventh win.

Steroid scandal

Steroid rumors plagued baseball. The federal investigation into BALCO, a sports medicine lab in San Francisco, continued and leaked court testimony indicated that Barry Bonds and Jason Giambi admitted to using what turned out to be illegal substances. Later, former slugger Jose Canseco wrote a tell-all book and claimed to have used steroids with former teammates, including Giambi and Mark McGwire.

Olympics go home again

The Summer Olympics returned to Athens, Greece, site of the first modern games. U.S. swimmer Michael Phelps was the breakout star, winning eight medals in his first Olympics.

Gymnasts Carly Patterson and Paul Hamm became the first Americans to win the all-around competition in 20 years. The men's basketball team failed to win the gold medal for the first time in 20 years, while the women's soccer team took home the gold in the final appearance for captain Mia Hamm.

King of Troy

Leinart won the Heisman Trophy, then a few weeks later led the Trojans to the college football national championship over Oklahoma in the Orange Bowl. Hyped as one of the best title game matchups in recent years, the game failed to live up as USC routed the Sooners, 55-19.

Chase for the Cup

In the first year of NASCAR's new scoring system, which crowned a winner after a 10-race series at the end of the season, brash young driver Kurt Busch won his first Nextel Cup by just eight points over Jimmie Johnson.
